

7th GRADE MATH SYLLABUS

2015- 16

Teacher Information

Name: Mrs. Lee

Email: LeeJ@scsd1.com

Phone #: (812) 794- 8740

Teacher website: <http://Lee7thMath.Weebly.com>

*** The best way to contact me is through email.**

Course Overview

Students will...

- ✓ Develop and apply rational number sense.
- ✓ Use algebraic representations to communicate and generalize patterns in mathematics.
- ✓ Use proportional relationships in percent, geometry, measurement, and probability.
- ✓ Use statistical measures to describe data.

Along the way, you will learn more about problem solving, how to use the tools and language of mathematics, and how to THINK mathematically.

Rules & Expectations

PROMPT

Be on time and in your seat when the bell rings.

PREPARED

Bring all necessary materials to class daily.

POLITE

Be polite and respectful in words and actions.

PARTICIPATE

Engage in all classroom activities with a positive attitude.

POLICY

All school policies should be followed concerning cellphones, dress code, and food/drinks.

Absent Work

When you are absent, please check my website or the weekly agenda board to see what you missed. Ask for any worksheets you missed while absent. Please see me if you need help getting caught up.

What will you need?

1. Math binder with notebook paper
2. Several pencils (NO pens)
3. Folder

What should YOU do?

- ✓ ASK QUESTIONS!
- ✓ Stay organized
- ✓ Take notes
- ✓ Collaborate with others
- ✓ Participate

HOMEWORK

My policy on homework is that it is an absolute necessity to do well in math. It helps to reinforce the content taught in school and practice always makes better work. Students will be given homework daily Monday – Thursday. Please help your child develop a routine at home where he/she has a place to do the homework. If your child needs extra help, please have him/her come in before school starts (7:50 -8:15) to get help. Each Friday, students will have a quiz based on concepts covered that week. In order to be successful on these weekly quizzes, homework completion is essential.

GRADING

Grades $\text{GRADE} = \frac{\text{points earned by students}}{\text{total points}}$

Ex: If you earn 120 points for your work out of a total of 135 points

$$\frac{120}{135} = .8989 \text{ (B+)}$$

Re-teach/Redo: Each student will be provided an opportunity to retake or redo an examination or assignment for which the student received a failing grade. Assignments can be make up any time up to one week before final grades are due.

Late work: For a missing assignment, students have one week from the due date to turn it in and will receive a deduction. Any assignments turned in after the one week deadline may receive no grade higher than a 50%.
